

The Mini Banker is a medium security safe designed to protect your valuables and documents from theft and fire.

Mini Banker

burglary protection

Key Features

- High quality construction filled with Chubb safes M30 barrier material provides effective protection.
- A glass relocking device is incorporated into the boltwork system to provide additional resistance should the locks be dislodged during an attack.
- Supplied standard with a keyless combination lock, however key lock or digital locks are available as an option. The lock is protected by a manganese anti drill plate.
- 30 minutes fire protection for paper documents.
- The front edge of the door is anchored by front moving bolts and a full length docking bolt runs on the back edge of the door. Each bolt measures 25mm in diameter.
- The safe comes complete with a standard internal steel shelf which is adjustable in intervals to suit individual customer requirements. A single lockable drawer is also included.
- An epoxy based light grey paint that is both scratch resistant and durable.

Locking Options

- All Chubb safes' locks are tested to conform with the requirements of EN1143-1.

Electronic Lock

Keylock

- Secured as standard with a Keyless Combination lock
- Optional Key Lock Or Digital Lock fitted on request
- Provision exists for a second lock if required

Testing

The Mini Banker has been tested to the highest quality in its class against attack. Approved by Sold Secure to Gold Standard for burglary protection. Sold Secure is an independent testing authority approved by the British Home Office.

Fire Resistance

The range offers fire protection for 30 minutes for paper contents. In case of fire the intumescent strips around the opening of the body expand to seal the gaps between the door and body to provide 30 minutes of fire protection.
